(54) ORAL SMOKING DECREASING AGENT

(57)Abstract:

PURPOSE: To provide an oral smoking-decreasing agent capable of strongly giving the sharp taste of the smoking to men to increase the non-smoking or smoking-decreasing effect by compounding a flavonoid compound.

CONSTITUTION: A flavonoid compound such as a flavone, flavonoid glycoside or the powder or extract of a plant containing the flavonoid compound is added to a food, favorite luxury or drink utilized in the ordinary life in such an amount as giving the sharp taste of the smoking. The smoking-decreasing agent gives the sharp taste of the smoking, but does not give any affect to other tastes.
